

Data Source / Disclaimer

Well locations are calculated utilizing surveyed footages from section lines. Polygons, including field and unit boundaries, are created from legal descriptions contained in Montana Board of Oil and Gas Conservation orders.

Coordinates are calculated utilizing the Public Land Survey System (PLSS) dataset derived from the Bureau of Land Management's Geographic Coordinate Data Base (GCDB) project.

Data may not plot correctly when used with other PLSS datasets or map projections.

Information about the GCDB project is available at:

<http://www.blm.gov/wo/st/en/prog/more/gcdb.html>

Land survey data can be downloaded from:

http://www.geocommunicator.gov/GeoComm/Isis_home/home/index.html

Additional data (county boundaries, cities, etc.) is available from the Montana Geographic Information Clearinghouse at:

<http://nris.mt.gov/gis/>

No warranty, expressed or implied, is made, and the Board assumes no legal liability or responsibility for the accuracy, completeness, or usefulness of the information contained herein.

Questions should be addressed to, and possible errors reported to, the Board's Billings office at 406-656-0040 or by email to jhalvorson@mt.gov.
